PROFILE SUMMARY

Detail-oriented developer skilled in **JavaScript, React, and Node.js**, with a strong grasp of **DSA, OOP, and system design fundamentals**. Experienced in shipping full-stack features end-to-end — from ideation to deployment — while writing clean, well-tested, and maintainable code. Curious, fast-learning, and driven to build tools that help developers grow.

SELECTED PROJECTS

CVISION | NEXT.JS, NODE.JS, MONGODB, TAILWIND 2025 | [Live](#) | [GitHub](#)

- Designed and deployed a resume-analysis platform used by job seekers for instant feedback and skill matching.
- Integrated RESTful APIs and scalable backend with **MongoDB** for fast query response under concurrent load.
- Wrote reusable components and maintained high code readability while iterating rapidly on new features.

MYSTUDYAI | NEXT.JS, CLERK, MONGODB, YOUTUBE API 2025 | [Live](#) | [GitHub](#)

- Built a content-generation engine that converts YouTube videos into structured course modules and quizzes.
- Integrated AI APIs with robust error handling, authentication, and modular backend design.
- Focused on speed and performance metrics to optimize page loads and API response times.

RELAYCHAT | REACT, NODE.JS, SOCKET.IO, MONGODB 2024 | [GitHub](#)

- Shipped a real-time chat application featuring private rooms, read receipts, and message persistence.
- Implemented **Socket.io** and JWT authentication ensuring reliability and data security.
- Practiced iterative development and frequent peer code reviews to maintain quality.
